Baby gifts with a difference

IT is so difficult to find the right gift for a new baby, especially when you want to give something that is really personal. **Reeves** have launched an exciting new concept in their *Painting By Numbers* range, which will guarantee that your baby gift will be cherished. The *3D Frames By Numbers* kits combine crafting and art in a unique concept. Follow the numbers to paint the picture and then continue your artwork onto the frame. Finally, you can finish your frame by getting creative with a cute range of collage materials. There are 3 different colourways to choose from – blue, pink or yellow.
